

Certificate in Restorative Practices

Special Purpose Award Level 8 (10 credits)

What is this course about?

The Certificate in Restorative Practices aims to introduce the values, principles and processes for competent restorative practice and to engage learners in understanding the theory of Restorative Practice.

Learners will also have an opportunity to explore the context, history and benefits of restorative practice in the community.

This programme will offer learners the opportunities to explore a range of issues surrounding the background and practical use of Restorative Practice.

Who might be interested?

Social Care Workers, Social Workers, Teachers, Community Development Workers, Probation Officers, Youth Workers, Juvenile Liaison Workers, Family Support Workers, Residential Care Workers

What subjects will I study?

Introduction to Restorative Practice, Background to Restorative Practice, Application of Restorative Practice Skills, Understanding Empathy and Developing a Restorative Practice

On Completion of the Programme, Learners should be able to;

Collate evidence of their understanding of the principles relating to restorative practice and participate in assessment activities to provide evidence of their knowledge and understanding

Explore the range of structures and types of facilitation used within restorative practice and identified real-life situations where a restorative approach may be applied

To develop and share their understanding of the development of restorative practice with the community and confirm their understanding of the core values and principles for good practice

Develop an awareness of the roles and responsibilities in the Restorative Practice process
